SERVICE - PROVIDER (WEB) - flow in text

1.Sign-Up Flow:

1. Ask the user to enter a Phone Number.
2. Send an OTP to verify the phone number.
3. After OTP verification, prompt the user to:
 - Create a new password, and
 - Re-enter the password for confirmation.
4. The user can either:
 - Fill in their personal details and click Sign Up, or
 - Click Continue with Google to sign up using their Google account.
5. After sign-up (via form or Google), redirect the user to the Profile Setup page.
6. After completing profile setup or skipping it, the user should be redirected to the Profile setup page.

2. PROFILE SETUP PAGE

Purpose:

Collect basic provider details to initialize their profile.

Input Fields:

- ❖ Full Name
- ❖ Email (pre-filled if signed in via OAuth or email)
- ❖ Phone Number
- ❖ City, Pincode
- ❖ Profile Picture (upload)
- ❖ About

Actions:

- ❖ Save Button:
Saves the data and redirects to the Dashboard.

3. DASHBOARD

Purpose:

Allow providers to manage their profile and services.

Layout Details:

Top Bar:

- ❖ Notification Icon
- ❖ Message Icon
- ❖ Sidebar Toggle Button

Main Panel (Before any service is added):

- ❖ Main service 'Button'
- ❖ Additional Service 'Button'

Service Creation Flow:

Triggered by: Clicking either Main Service or Additional Service

Popup Form Includes:

- ❖ Upload Service Image
- ❖ Select Service Name (dropdown)
- ❖ Enter Service Cost
- ❖ Enter Description
- ❖ Save Service 'Button'

Post-Save Behavior:

- ❖ Service is shown as a square card on the dashboard with top to down scrollable (as shown in the image) with:
 - Service Name
 - Image
 - Price
 - Description
 - Action Icons: Like, Share, Edit

UI Change After Service details Save:

- ❖ Main service and Additional service buttons move to the left sidebar (in between profile info & Logout 'button')
- ❖ Side Bar
 - Have profile image, Name, Email, Logout(button)

4. GRID DISPLAY(bottom circle grid)

Purpose:

Display all services with provider profile details in a visual grid format.

Trigger:

- ❖ When hit, the Grid Button should move to the grid-display page.

4. GRID DISPLAY-PAGE(as shown in image)

Top Section:

- ❖ Profile Picture
- ❖ Name
- ❖ Email
- ❖ Phone Number
- ❖ City, Pincode
- ❖ Description (if ava

Grid Display(Service images):

- ❖ Shows all saved services in a square grid layout
- ❖ Filterable by service type (Main or Additional)

Notification page 🙌

END - USER (MOBILE APP) - flow in text

1. Signup & Login Page

- User signs up or logs in to access the app.

2. Dashboard Page (Main Feed)

Purpose:

Users can browse, search, and interact with services.

Top Bar:

- Hamburger Menu (left) → Opens sidebar with profile image, name, email, logout
- Search Bar (next to notification) → Search for services or categories
- Notification Icon (right)

Service Post Layout:

- Provider's profile image and name
- Main service image (clickable)
- Like and Share icons with count (likes are countable)
- Truncated description with "more" option

User Interactions:

- Tap image → Opens Service Image Page
- Tap heart → Increments like count
- Tap share → Opens sharing options
- Use search bar → Filter services by keyword

3. Service Image Page (Detailed View)

Purpose:

Displays full service details and initiates the call flow.

Top Bar:

- Back Arrow to return
- Provider's name, profile, and category

Layout:

- Provider's profile and estimated price
- Main service image
- Like and Share icons with count
- Truncated description with "more" option

4. Call Feature

User Flow:

1. User taps "Call" button
2. Popup asks: "When do you want this service?"
 - User selects day, month, year
 - Clicks "Save"
3. After Save:
 - User sees a notification within 30 seconds with 3 buttons:
 - CANCEL → Exit call flow
 - CALL NOT CONNECTED → Exit call flow
 - CONNECT → Sets status to "Pending"
4. If User hits CONNECT → Provider receives a notification

Provider Flow:

- Provider receives notification:
"This user wants to connect with you. They are interested in your service."
- Provider sees 3 buttons:

- CANCEL → Cancels the request
 - User status updates from "Pending" to "Cancelled"
 - User notification: "Request cancelled by provider"
- CALL → Direct call to the user (no status change)
- CONNECT → Confirms connection
 - Both parties see:
"Congrats! You're now linked with #NAME — made the service well together!!"
 - User status updates from "Pending" to "Connected"

5. Notifications Page

Purpose:

Shows connection status and control options.

Content:

- Name, profile, selected date
- Status: Connected, Pending, or Cancelled
- Button: "Click to Delete" → Ends connection
